

Dear homeowners,

We are proposing orders of changing telephone system in house.

The system of ring is single, electronic however its disadvantage is in analogical character. There are systems only digital presently, basically there is kind of computer network. It is going to be necessary to change all intercoms in flats, all controlling central units and all communication panels at entries because the installed apparatus has not produced for several ages. It is not possible to buy some parts. Professional contractors were contacted with offer about order of repairing by us as well as the agency of maker that is current of LEGRAND system (<http://www.legrand.cz>) for CZ. To be afraid there was confirmed by administration of house that actual system is unrepairable from their point of view and it has not produced for several ages. Unfortunately substitute tools has not been to find. Current mainfolds in walls is suitable for new system and it will be observed.

After finding the administration of house wrote out new pitch. It was spoke to 11 suppliers that occupied with low- voltage current mainfolds. Only three firms from 11 suppliers gave price order. Total price of delivery from the orders is about milion czech crowns. It is necessary the highest head of committe decided about the basic investment that is gathering of owners.

After gaving the price orders the maker of system 2N has delated planned increasing price his products. All interested person were requested to remove from their orders the delivery of communication tableau at entrance to garages , which is not necessary and it was not used at past, because all users of garages has owned remote control of garages doors and the garages does not have any reserved parking place for eventually visitors. The interested persons were requested because of reduction incidence to price of delivery. It was specified the total amount of flat stations when the last text of pitch has not contained a request for gaving two flat stations to maisonette houses. The total amounts of flat stations was modified on basic the project documentations of implementation building of part low- voltage current mainfolds. Only one of the addressed professional contractor has given revised order.

Considering to urgency of changing statutory agency has decided to not wait on date meeting the owners gathering and to utilize possibility text VII paragraph 20 of statutes according with establishing § 1210 paragraph 2, consecutive law č. 89/2012 Sb., civilly code, in actually sounding to vote about suggestion postal vote.

We are proposing you to decision and voting order for delivery of new telephone system in house.

In view of the fact that it is necessary to approving this thing 75 % majority voices all units owners. We are requesting you to utilize your voting law and to deliver properly fullfilled voting card.

Particularly we are requesting participation on voting by owners from house 1580/18 when the home system was changed in virtue of total colaps last year.

We are proposing a base to your decision and voting:
